DATA

ITEM NO.	20522
CONTENT	400 ml
WEIGHT	0,400 kg
DIMENSION	H 19,5 cm x B 6,5 cm x T 7,5 cm
Carton order	12 pieces
EAN-CODE	9120045475265

DESCRIPTION

Operational area:

RUNPOTEC cable lubricant FOAM, based on silicone, reduces the frictional resistance by up to 40% and thus facilitates the task of pulling cables and wires into electrical installation ducts.

Application:

Spray RUNPOTEC cable lubricant FOAM on the cable or in the cable shaft, the contained lubricants distributes itself evenly and thus facilitates immediate cable pulling. Thanks to the special applicator you can spray large areas or precisely and metered with the fold-up spray tube. Shake before use! To prevent staining, we recommend covering sensitive surfaces or removing excess lubricant directly with a damp cloth.

Product features:

Non-flammable, excellent sliding and lubricating properties, no sticking, no drying out, water soluble, VOC-free. Retains its lubricating and non-stick effect for many years. Non-drip, and thus perfect for clean overhead work.

Caution: H229 container is under pressure, may explode when heated. Keep away from heat, hot surfaces, sparks, flames and other ignition sources. Smoking prohibited. Do not force open or burn, even after use. Protect from direct sunlight. Do not expose to temperatures above 50 °C/122 °F. Keep out of the reach of children. Staining possible on sensitive surfaces. **For instructions see safety data sheet!**

Scope of delivery: 1 piece cable lubricant foam

ADVANTAGES

- **Non-flammable!**
- **No dripping**
Perfect for clean overhead work
- **Foam is optimally distributed in the pipe and on the cable**
- **No sticking**
- **Special attachment**
Spray in or on large areas or precisely and with exact metering by means of a hinged spray tube.
- **Excellent sliding and lubricating effect over many years**
