DESCRIPTION

The RUNPO5 is another innovation by RUNPOTEC and a genuine "all-rounder". The patented viewfinder tip, the RUNPOGLEITER with twist compensation allows even the tightest radii to be overcome, with a total breaking load of an incredible 270 kg in relation to the entire pulling system. The special plastic strap with a diameter of 5.3 mm and a triple twist has an even better shearing effect than the 3 mm glass fibre rod; the frictional resistance is only half the normal value due to spot contact. Labour- and time-consuming repair work is no longer necessary, as this cable pulling system is virtually breakage-free. The RUNPO5 can be stored in a very practical box in lengths of 20 m and 30 m. The 40 m RUNPO5 strap cannot be stored in the box.
