DESCRIPTION

The 2-Components special glue is a high-performance adhesive specially designed for repairing GF6, GF7.5, GF9, GF11, and GF15 series fiberglass rods. With 20% more adhesive strength than superglue, it provides a particularly strong and durable bond. Thanks to its medium viscosity, it can be applied precisely and ensures reliable bonding. The transparent adhesive also ensures inconspicuous repairs, while its high resistance can withstand even heavy loads. Perfectly matched to all RUNPOTEC fiberglass rods, this special adhesive is the ideal solution for professional repairs. Further safety information can be found in the safety data sheet.

Scope of supply: 1 x 2-component special glue 24 ml
