DESCRIPTION

Cable lubricant GEL greatly reduces friction resistance, making it easier to pull cables and wires into electrical installation pipes and protecting them from damage.

Application: Apply RUNPOTEC cable lubricant GEL to the cable or inside the pipe. Also highly effective when inserting cable insertion systems.

Product features: Non-flammable, reduces frictional resistance, temperature-resistant up to 85°C, improved sliding effect, silicone-free, water-soluble, non-corrosive, non-sticky, skin-friendly, biodegradable. Dissolves without leaving any residue.

Caution: Close after use, store in a cool, dry place. Do not allow to come into contact with live parts. Risk of short circuit! EUH208: Contains 2-methyl-2H-isothiazol-3-one. May cause allergic reactions. May cause staining on sensitive surfaces.

Scope of supply: Cable lubricant GEL 1000 g

ADVANTAGES

- Not flammable!
- No sticking, colourless and odourless
- Dissolves without residue.
- Great price/performance ratio
- Excellent sliding and lubricating effect
