DESCRIPTION

The magnet catch set includes two starting bulbs, a magnet ball with a diameter of 10 mm and an adhesive force of 1.5 kg, and a magnet ball with a diameter of 14 mm and an adhesive force of 2.9 kg.

It is attached to two insertion systems at the tip and can also be used in pipes with a small cross-section, such as electrical installation pipes with a diameter of 16, 20, 25, and 32 mm. The set is ideal for "fishing" and catching metallic objects in narrow pipes.

A major advantage of this system is its flexible use in pipes with an inner diameter of 12 mm or more, making it suitable for a variety of applications. The magnetic catch set is compatible with all RUNPOTEC products with RTG Ø 6 mm threads.

Scope of supply: 1 x Magnetic ball 1,5 kg Ø 10 mm, 1 x magnetic ball 2,9 kg Ø 14 mm, 2 x starting heads for magnetic adhesion

ADVANTAGES

- Magnetic catch system for pipe from inner diameter 12 mm
- Adhesion force from 1.5 kg - 2.9 kg
- Suitable for all RUNPOTEC products with RTG Ø 6 mm thread
