DESCRIPTION

The cable drum unwinder made of light die-cast aluminum and continuous casting with robust, adjustable support rollers is ideal for the highest loads in daily use. The support rollers with spring core axles can be quickly adapted to different cable drum sizes up to a maximum of Ø 1000 mm by adjusting the spacing to 85, 160, 225, 290, 310 and 335 mm. The closed, maintenance-free drum bearings are equipped with welded belt edges and extra strong ball bearings. Four feet made of high-quality plastic ensure a stable and non-slip stand and protect finished floor coverings. PRO 530 and PRO 670 cable drum unwinders can be retrofitted with castors!

Application video: you can watch a short, very informative application video by scanning the QR code or on www.runpotec.com.

Scope of supply: 1 x PRO 530 or PRO 670 cable drum roller with rubberised handles, stand feet, 2 x support rollers - pre-assembled
