DESCRIPTION

The cable guide roller - shaft inside edge is ideally suited for mounting on the edge of a shaft or on steps to pull cables gently around corners with the least possible resistance. A right-angled stop is provided by the two lugs. It can be secured in place with a belt or screws via the assembly opening. The lightweight and highly robust design reduces the effort required with optimum success. The high-quality die-cast aluminium rollers with integrated ball bearing and the sturdy powder-coated steel frame guarantee a long service life. Ergonomic aluminium handle - Load capacity 4500 kg.

Optimum area of application: for mounting on the edge of a shaft or on steps to pull cables gently around corners.

Application video: a short, very informative application video can be viewed by scanning the QR code or on www.runpotec.com.
